	This is the feedback we got from the partners about which datasets should be prioritized for collecting. It shows all **66 datasets**. The discrepancies, i.e. when at least one disagrees, are marked in red. The source is the list "INPUT_data_tamplate.xlsx" from the HELCOM-VASAB MSP Group 3rd meeting. Our objective is to define what datasets we need for the Baltic Lines project.									
				Priority: High / Medium / Low						
Category		Datasets	Is it available? Which source?	CORPI	BSH	MIG	PTMEW	Agreed High	Agreed Medium	Agreed Low	Discrepancy
Administrative borders											
		National	HELCOM but needs to be checked and possibly updated	low	high if land area;	meaning land borders? good to show on maps but not crucial	high				x
		Regional	HELCOM but needs to be checked and possibly updated	low	low	low	medium				x
		Local	HELCOM but needs to be checked and possibly updated	low	not needed	medium/low	low			x	
		Territorial water	HELCOM but needs to be checked and possibly updated	high	high; need to have attributes/information about status	high, Polish data probably need to be updated due (PL-GE border)	high	x			
		EEZ	HELCOM but needs to be checked and possibly updated	high	high; need to have attributes/information about status	high	high	x			
Aquaculture											
		Aquaculture areas	PLC annual, national data call (HOLAS II)	low	low		no idea			x	
Fisheries											
		Fishery area (where BSA nation fish)	HOLAS II: HELCOM-ICES VMS data call results	low	low	high, most preferably broken down by tools	high				x
		Spawning and nursery areas	HOLAS II (fish species tbc, at least cod)	high	low	high	high				x
						medium... rather routes to the main fishing areas, not
