PLAN BOTHNIA -project

- DG MARE MSP "preparatory action" (MARE/2009/16)
- 18 months (Dec 2010-May 2012)
- Testing joint transboundary spatial planning in the Bothnian Sea between Finland and Sweden
- HELCOM BSAP 2007 & Rec. 28E/9:
 MSP principles by 2010, tested by 2012
 - Joint HELCOM-VASAB MSP principles
 (December 2010) complementing the 10 EU MSP principles in Roadmap

PLAN BOTHNIA -main aims

- Facilitate and Involve regional and national actors
 - Five dedicated meetings
- Phase I: Assessment and background information
 - Assessment document and GIS datasets (Spring-Autumn 2011)
- Phase II: Spatial Plan
 - -Test drafting of a MSP Plan based on I (winter 2011-2012)
- No adoption aimed at- test case and material for future Finland-Sweden dialogue

Progress since start

- National and regional actors fully involved
- Kickoff (Dec), 2 major MSP Meetings (March, June) and several preparatory meetings held
- Background GIS material collected and harmonised
- Draft of Bothnian Sea MSP Assessment available
- Min. requirements & Best Practices draft
- Website to disseminate it all

PLAN BOTHNIA at European Maritime Day 2011 (Gdansk, Poland)

02/05/2011 at 15:06 | Posted in Uncategorized | Leave a comment

PLAN BOTHNIA will be presented at the European Maritime Day Conference 2011 (Gdansk, Poland 19.-20.May 2011) during the workshop "Towards coherent Maritime Spatial Planning in the Baltic Sea" (20 May 2011, 13:30 - 15:00, The Polish Baltic Philharmonic Hall, room 1, Gdansk). In addition to PLAN BOTHNIA this workshop will cover HELCOM-VASAB cooperation on MSP as well as other projects (see full programme of the conference). Hope all of you present in Gdansk will select this session as your afternoon program for the 20th!

View data in Google Earth

29/04/2011 at 14:02 | Posted in mapservice | Leave a comment Tags: dataset, download, layers, mapservice, publish

Now you can view the layers in Google Earth!

Go to Download:

And select the layers you want to view. Be Aware that some of them are quite large and it takes a while to load them.
