

Baltic marine ecosystem services and goods

[Benefits 3,8(5,0) B €/year – Costs 2,8 B €/year = Surplus 1(2,2) B €/year]

Ecosystem services provided by the Baltic Sea, also illustrating (orange arrows) how one ecosystem service (food) is dependent on other ecosystem services. (by J. Lokrantz/Azote, "[The Baltic Sea - Our Common Treasure. Economics of Saving the Sea](#)", 2013)

Nordic/UNEP/HELCOM Workshop on ecosystem services valuation

- **Where and when**

- [Stockholm Resilience Center, Sweden]
- Late October – beginning November 2013 [tbd]

- **Topic**

In terms of valuation of Baltic marine ecosystem goods and services

- Where are we now?
- How to evaluate marine ecosystem?
- How these values are considered in policy?
- What is needed to make more room for it in policy-making, governance, science etc?
- How it can be used in management, e.g. linkage to EU MSFD?

- **Target group**

- Scientists, public authorities, national governments, NGOs, etc.
- Mainly Baltic region, but with representation of other RSC (European and global)
- Up to 80 participants altogether

Comments/inputs welcome!

- **Stockholm Resilience Center**

Mr. Marcus Öhman, Project Manager

(marcus.ohman@stockholmresilience.su.se)

- **Ministry of the Environment, Sweden**

Ms. Jorid Hammersland

(jorid.hammersland@regeringskansliet.se)

- **Nordic Council of Ministers**

Swedish Marine and Water Agency

Mr. Bengt Fjallborg (bengt.fjallborg@havochvatten.se)

- **HELCOM Secretariat**

Mr. Mikhail Durkin (mikhail.durkin@helcom.fi)
