PREDICTION 2050

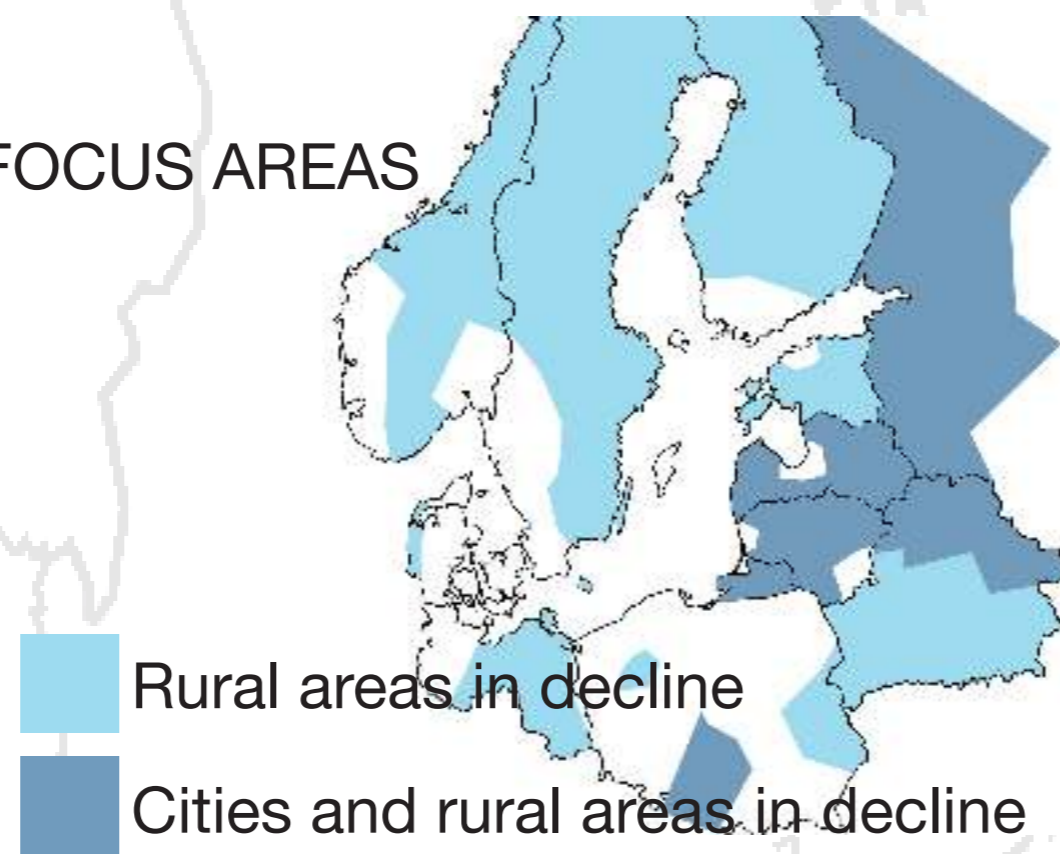

OUR VISION FOR 2050

In 2050, the rural areas in the BSR are lively and flourishing, securing the livelihood of people and providing services for its inhabitants by overcoming the urban-rural divide.

TARGET POPULATION:

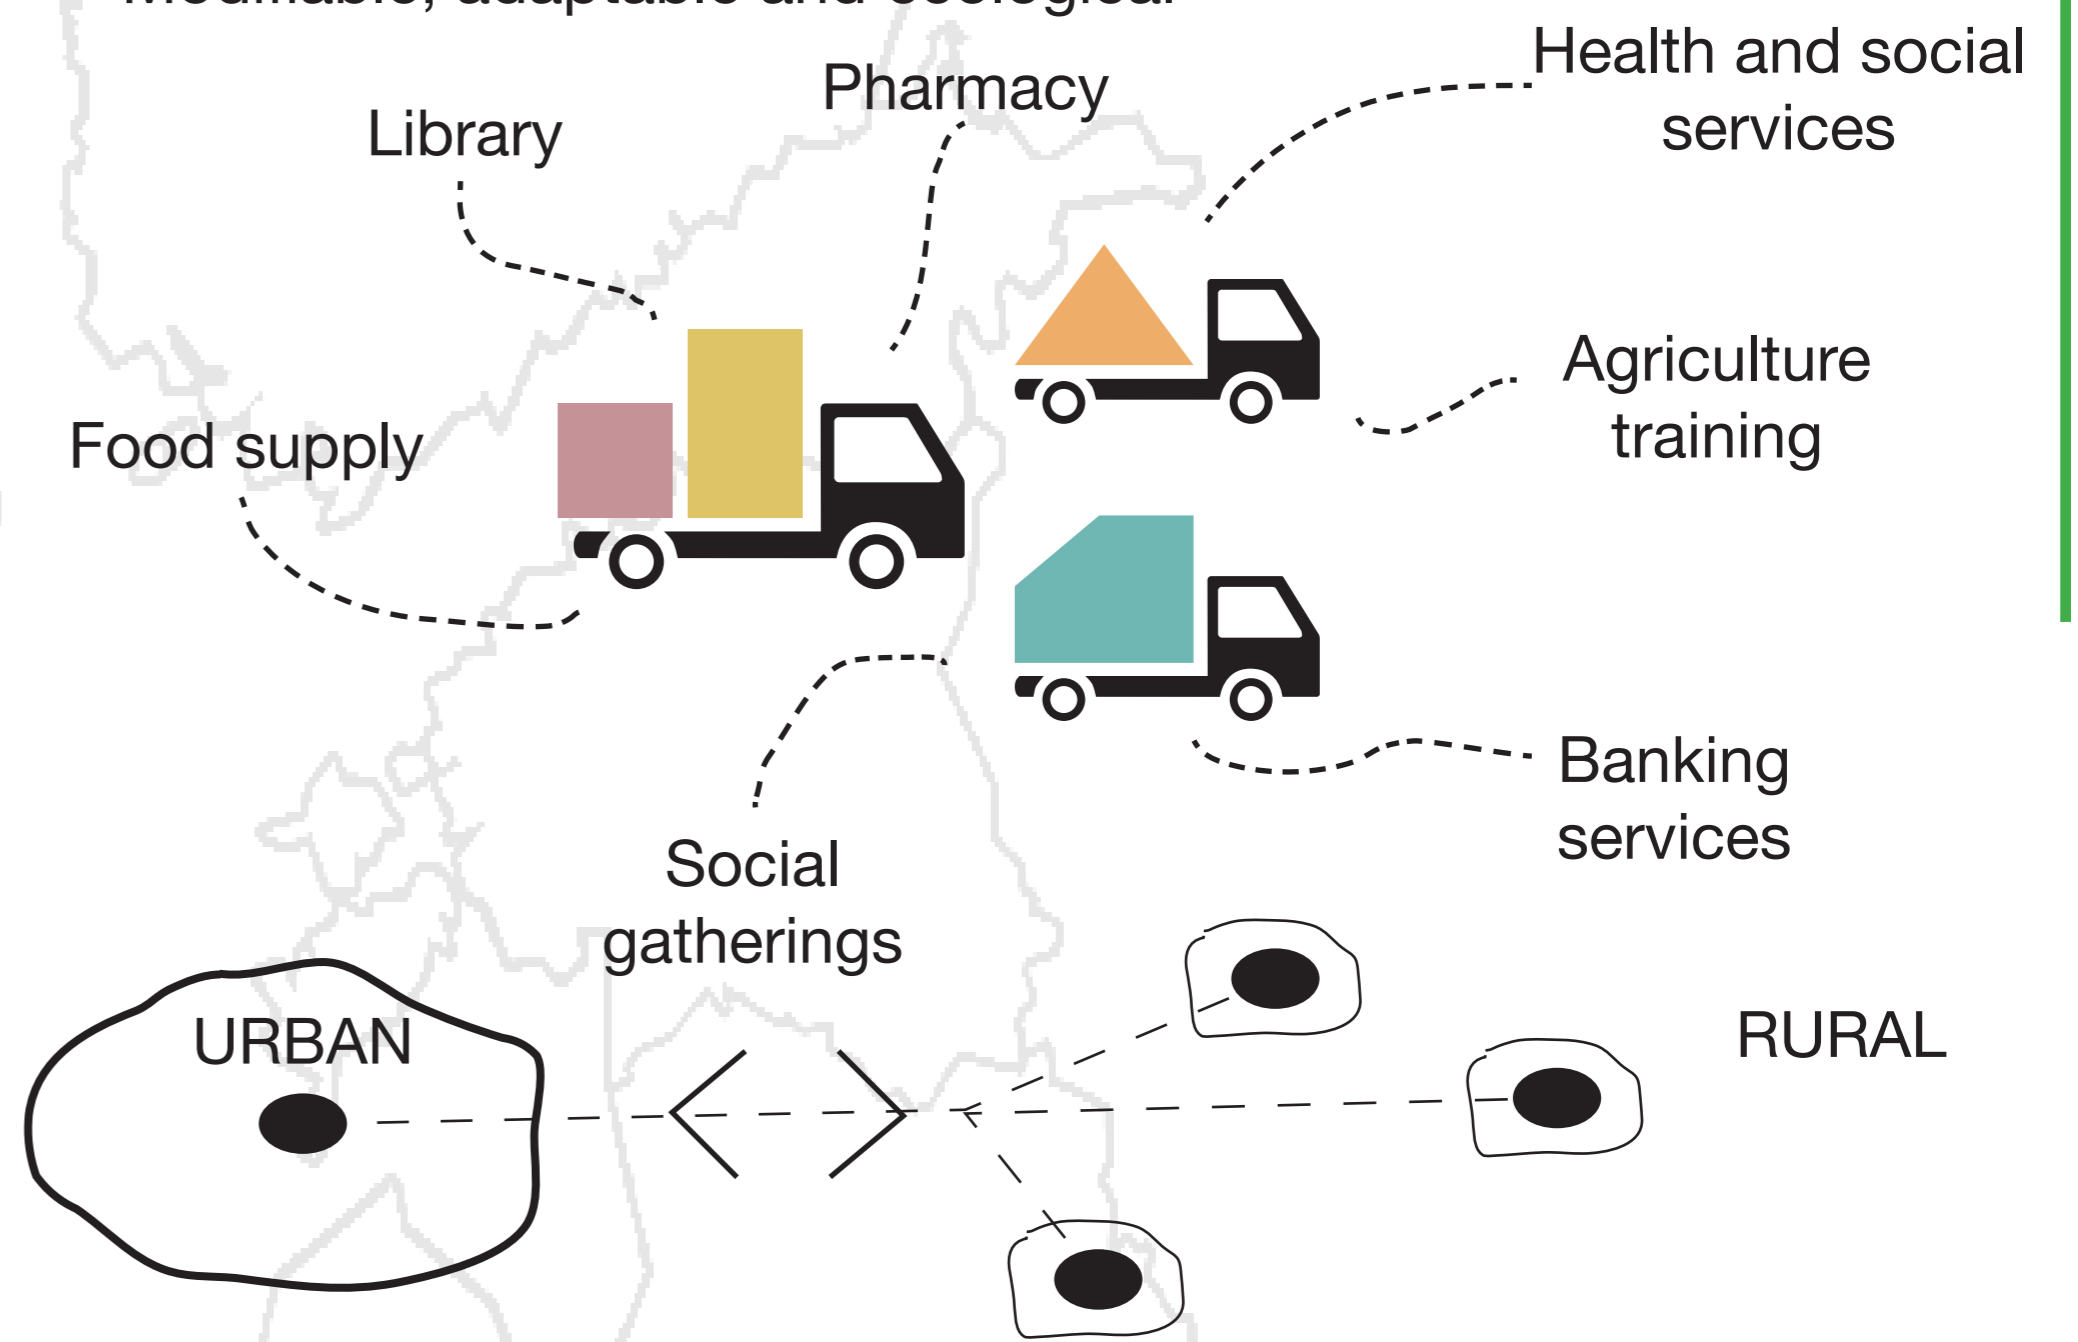

- 1st: rural population with a focus on the ageing population
- 2nd: young generation in the urban areas

FOCUS AREAS

THE BOLTICFLEET

Modifiable, adaptable and ecological

THE STARTING POINT IN 2019

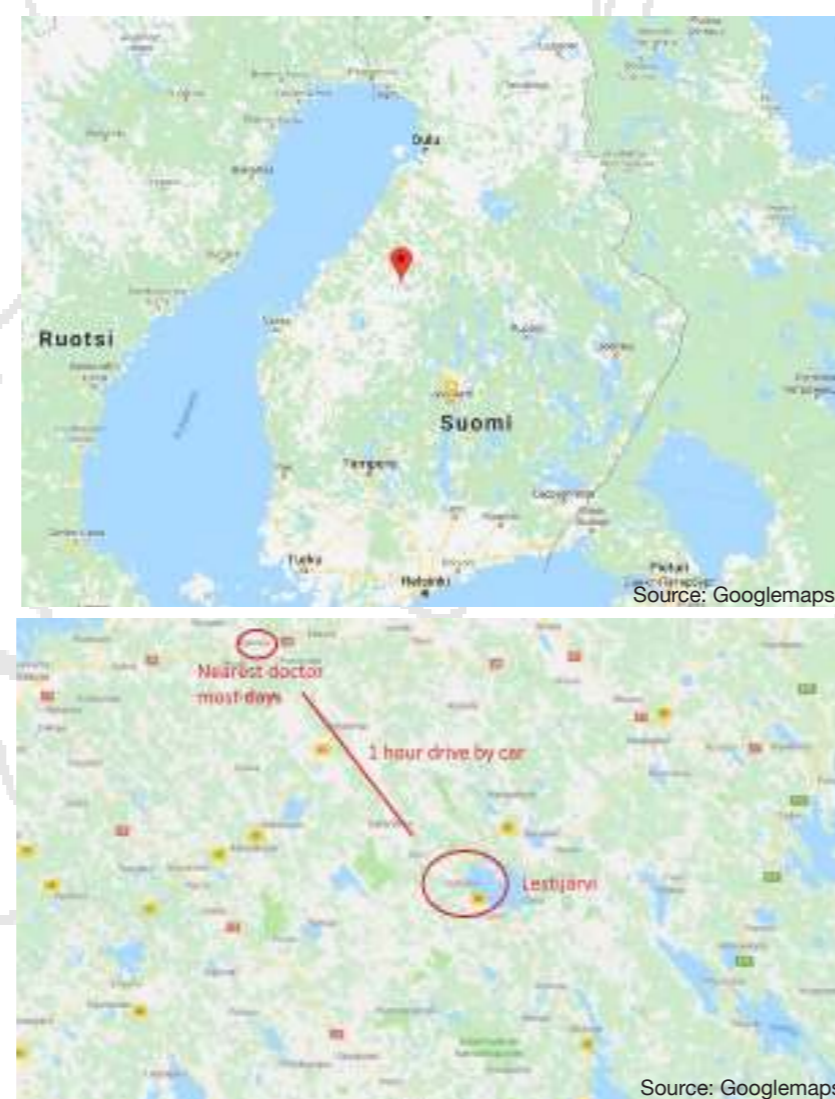

Population: 737 people (declining about 10 % per year), mostly farmland, unemployment rate 11 %

Poorly provided basic services:

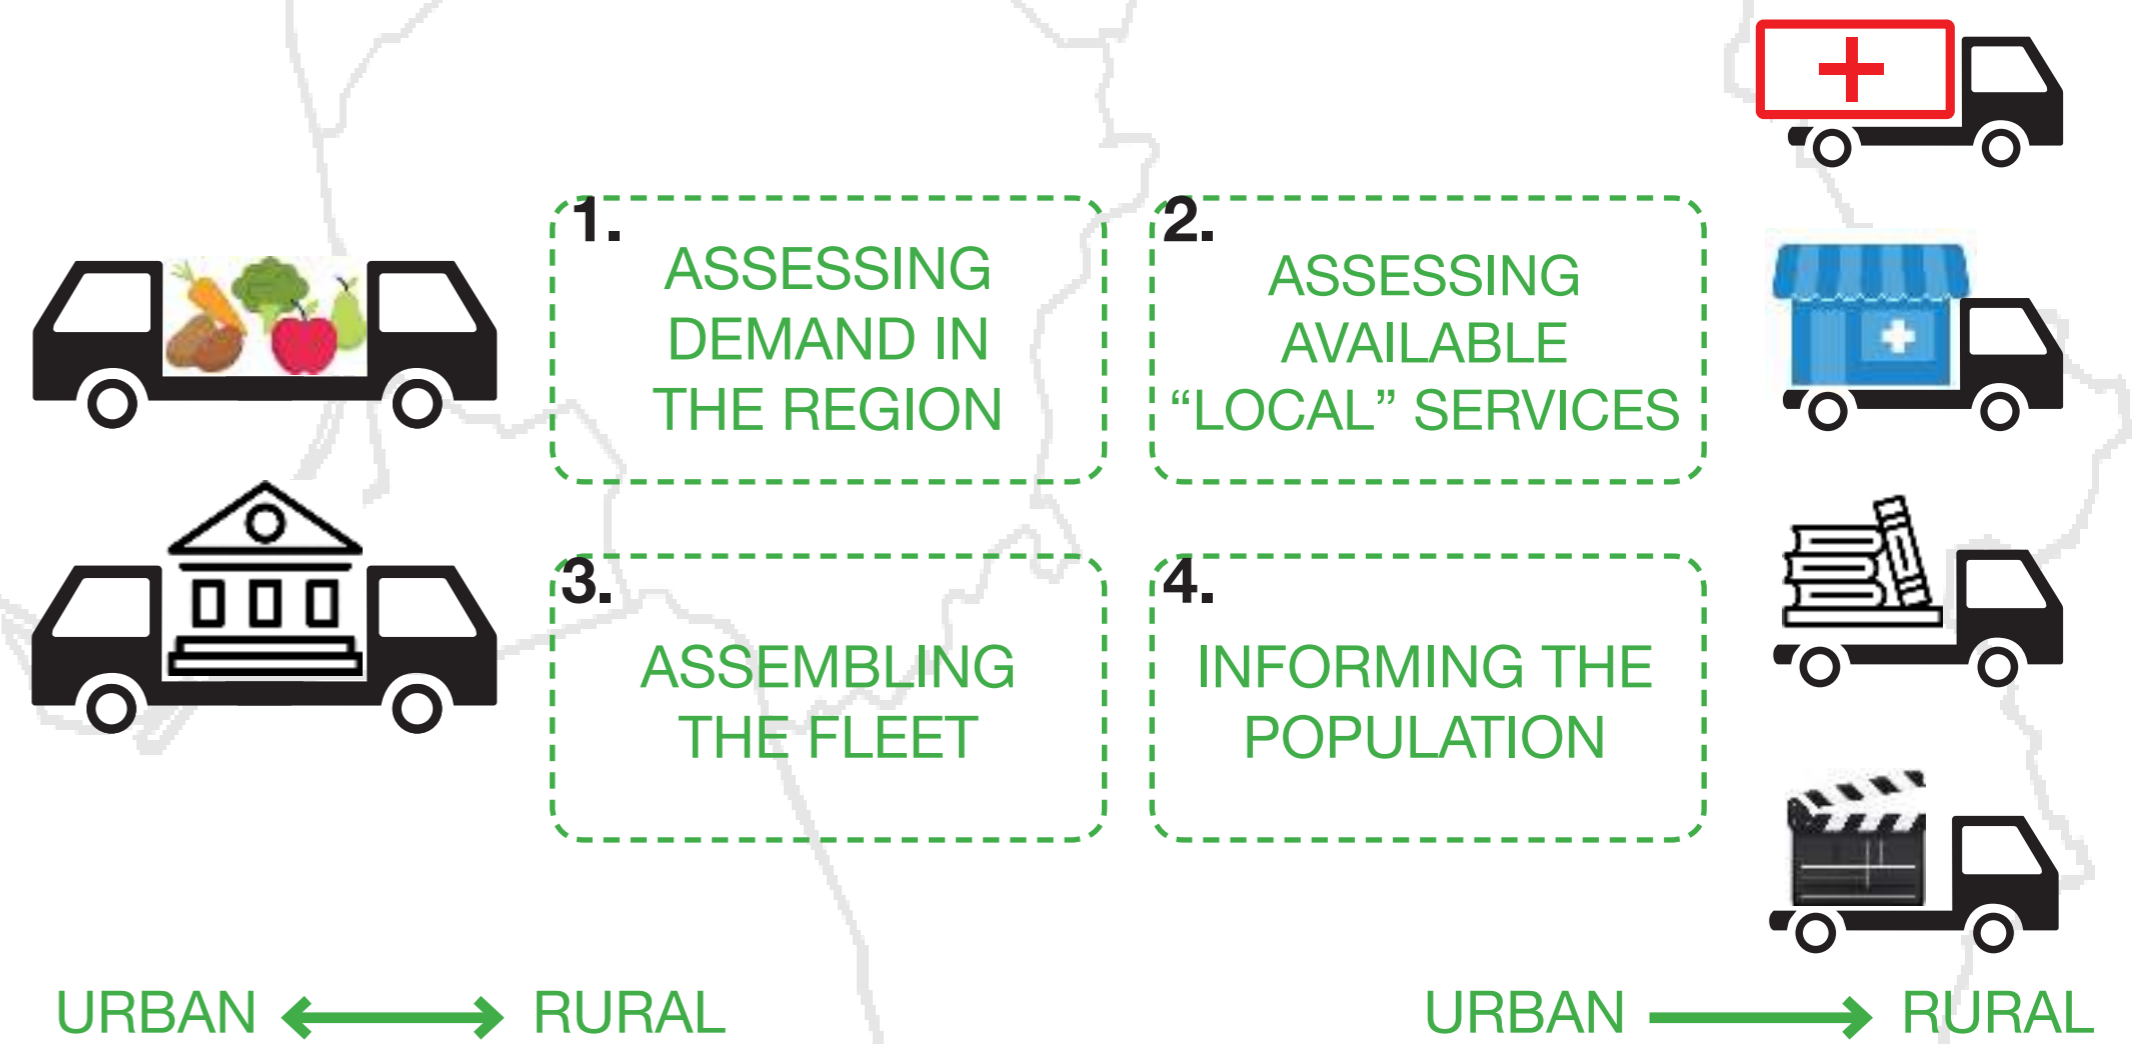

- Medical doctor
- Grocery store
- Restaurant/bar
- Public transportation

Vision for 2050: Well-connected and attractive rural area for ecological farming and services

2019

HOW IT WORKS

POSSIBLE PARTNERSHIPS

THE FINAL OUTCOMES

- Paradigm shift from a city-focused development to a revival of the rural areas
- Interconnected urban and rural areas
- Improved accessibility of services in rural areas
- Strengthened rural employment
- Greater integration and participation of the elderly in the society
- Reduced need for private transportation
- Community-building
