Regeringen fattar beslut om Sveriges första havsplaner

Hur bör havet användas på bästa sätt? Svaret finns i de havsplaner som regeringen nu fattat beslut om. Havsplanerna har tagits fram av HaV i tät samverkan med över 150 organisationer – allt från länsstyrelser och kommuner till lokala föreningar.

Denmark's maritime spatial plan

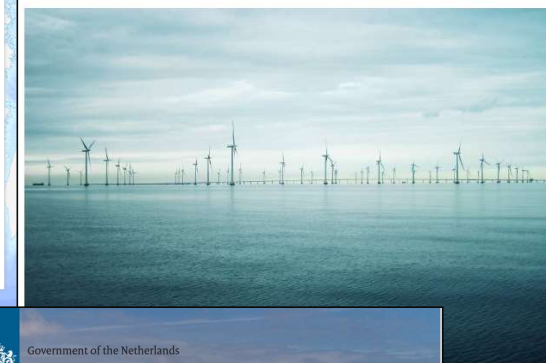

Denmark's maritime spatial plan has been issued as a digital executive order. This means that all relevant information about both the content of the maritime spatial plan and any consultations and historical versions of the maritime spatial plan can be found here. You can also view service information that is not part of the executive order by clicking on the layer icon in the right corner.
