### VASAB Summer School "Sustainable Futures in the Baltic Sea Region"

# Climate change Impacts on human settlements

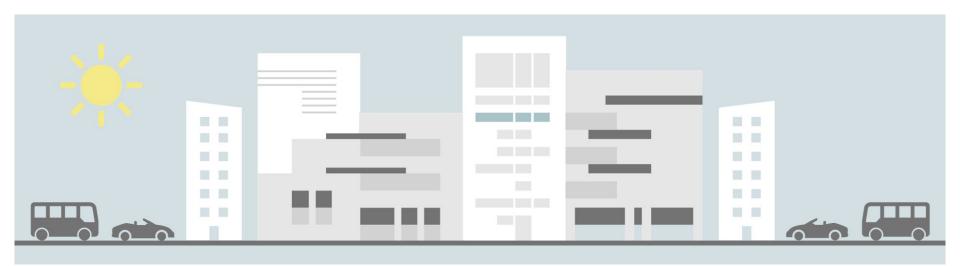

Presentation by

Kätlin Põdra, Khondaker N. S. Tumpa, Nino Tabeshadze, Dana Eglīte

# 3 4 5 Introduction to our theme

- → Baltic Sea region has warmed in relatively faster pace than the global average by 0.5-1.0 °C and warm extremes are projected to become more pronounced.
- → Cities are often 10-15 °C hotter than their rural surroundings.

#### **Human activities | artificial infrastructure**

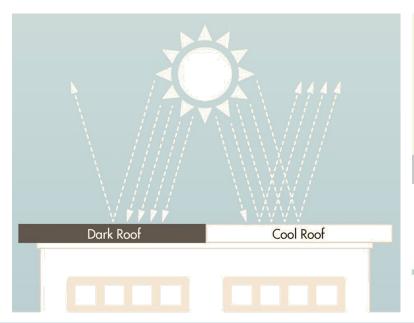

# BALTIC STATES ROOF PLANNING STRATEGY 2040

#### **Inclusive strategy targeted to Baltic States**

- → Proper precautions are needed when planning a sustainable roof;
- → Sustainable solutions and examples from all over the world;
- Understandable for everyone.

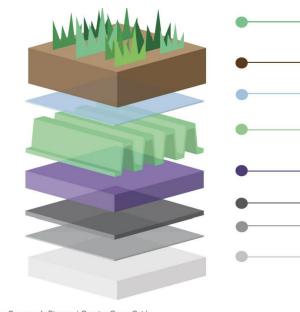

NATURAL LANDSCAPE GENERATES MANY ENVIRONMENTAL AND WELLNESS BENEFITS

- **Green roofs** (intensive, semi-intensive and extensive)
- **Increase Biodeversity**
- Reduce flood and drought risk
- Reduce temperature at macro or micro scale
- Increase accessibility to green open spaces
- Enhancing sustainable urbanisation
- Saves energy and regulates the indoor temperature
- Reduce load to sewer system
- Air purification
- etc.

economic, social levels ecological and

Vegetation

Filter Sheet

Drainage Layer

Protection Mat

Root Barrier

Roof Deck

Waterproofing Layer

**Growing Substrate** 

#### **Western Harbour (Malmö)**

- → Extreme drought tolerance (7 weeks without rain in 2018)
- → 90 % native plants
- → Partly financed (40%) from the Swedish Innovation Agency

#### Vihreistä Vihrein (Helsinki)

- Biodiversity roofs and habitats for insects (for research purposes)
- → Recreational use (community aspect)

## Tranforming Jõgeva

- → Polluted air
- Lack of new infrastructre (post-soviet buildings)
- Strategic location and availability

## **Baltic State Roof Planing Strategy - stakeholders**

#### **Policymakers**

 Government officials, state actors, special advisers etc.

#### **Citizens/ community**

 Community centers, non-profit organisations etc.

#### **Insitutions and organization**

 Research centres, Innovation Agencys, universities etc.

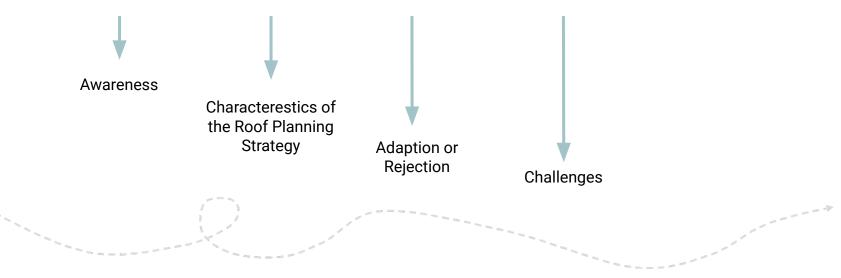

#### **Planners**

 Professional experts working in the field - developers, architects and landscape architects etc.

1. Knowledge - 2. Persuasion - 3. Decision - 4. Implementation - 5. Confirmation
