1. Introduction

Vision = desirable future

VASAB 2040: very ambitious

1. Introduction

two questions:

- How could vision come to reality?
- How could vision deal with rapid changing world?

2. Questions

How could vision come to reality?

- mainstreaming
- implementation projects
- multi- level governance
- connect spatial planning and territorial development

2. Questions

How could vision deal with rapid changing world?

Changing world during preparation and during implementation!

- climate change, renewable energies
- biodiversity
- demographic change
- populism, nationalism...
- Russian War

3. Conclusions

Be aware of changing challenges! Therefore:

- Resilience
- Flexibility
- Innovation capability

Balancing competition and cooperation!

3. Conclusions

Be aware of egoism, populism, nationalism

(partly as a result of growing social divide)

- Social justice!

4. Final remarks

Not only green, but also just transition!

Not only spatial planning, but also territorial development and multi-level actor-networks

- BSR as a / *the* role model for territorial cohesion in Europe!

Thank you for your attention!
