VISION 2040

Kai Böhme
Spatial Foresight

Future Sketch the BSR in 2040

A Baltic Sea Region for the next generations

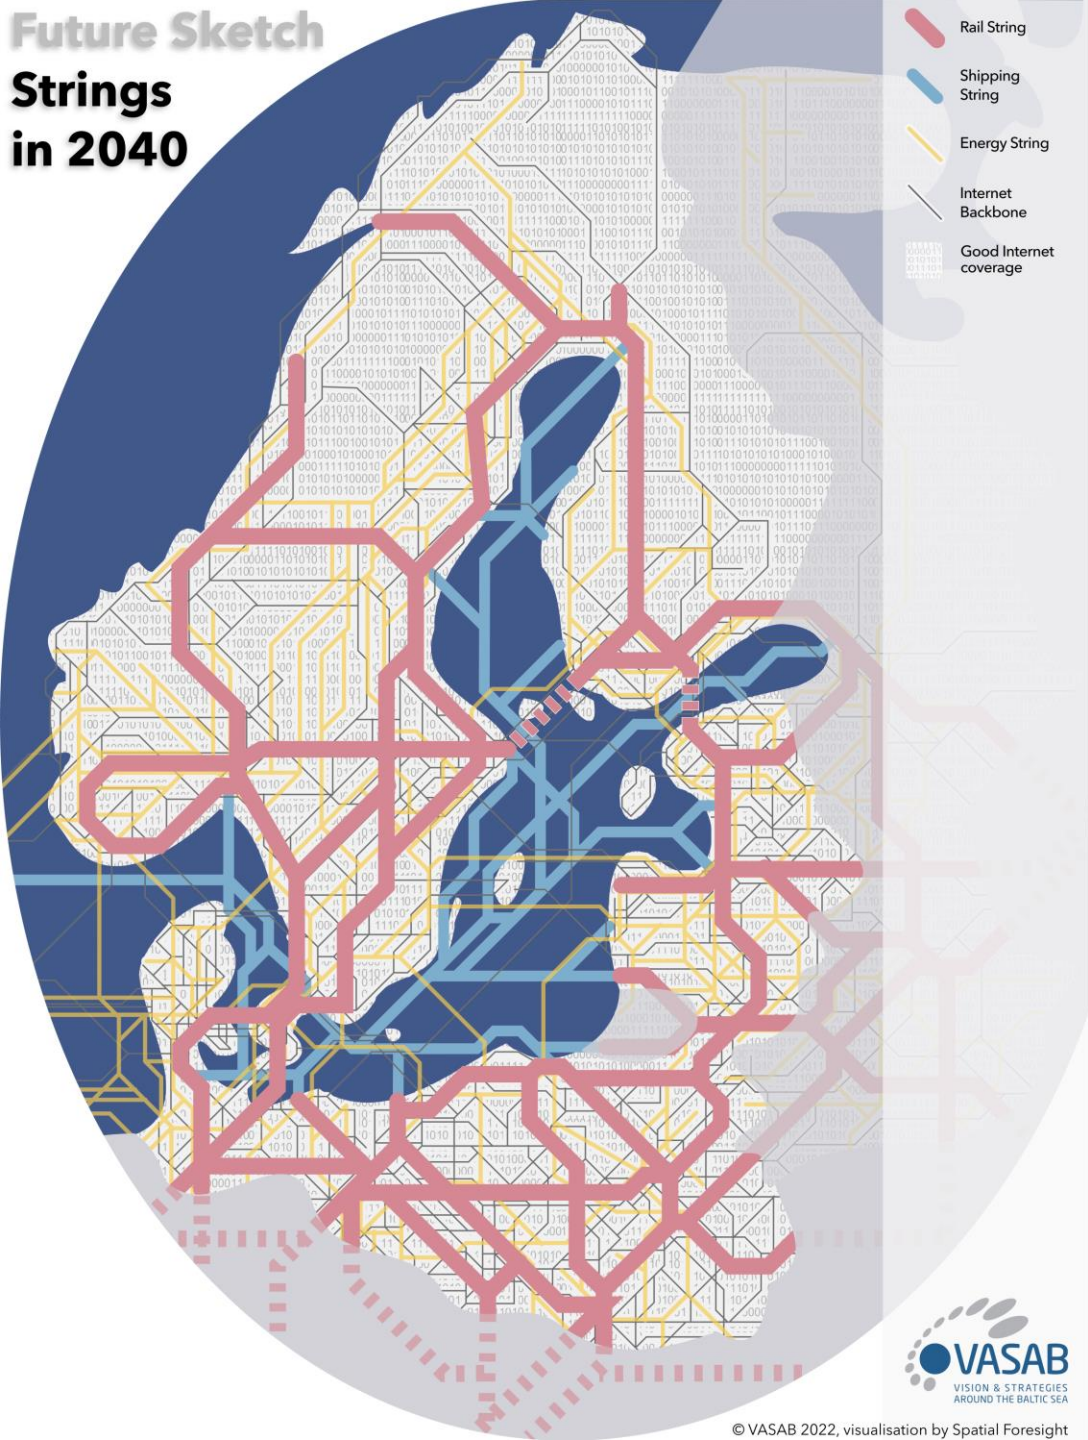

- A diversified and fresh Baltic Sea Region
- Vibrant *pearls* of all sizes
- Well-connected *strings* between people and places
- Resilient *patches* of ecosystems and unique areas at sea and land
- Cooperative sea and land planning *systems*

Future Sketch Pearls in 2040

Pearls 2040

By 2040 all places, rural areas, small and medium-sized towns, cities and metropolitan areas offer high quality of life, building on their own comparative advantages and complementarities and being well networked with and across each other.

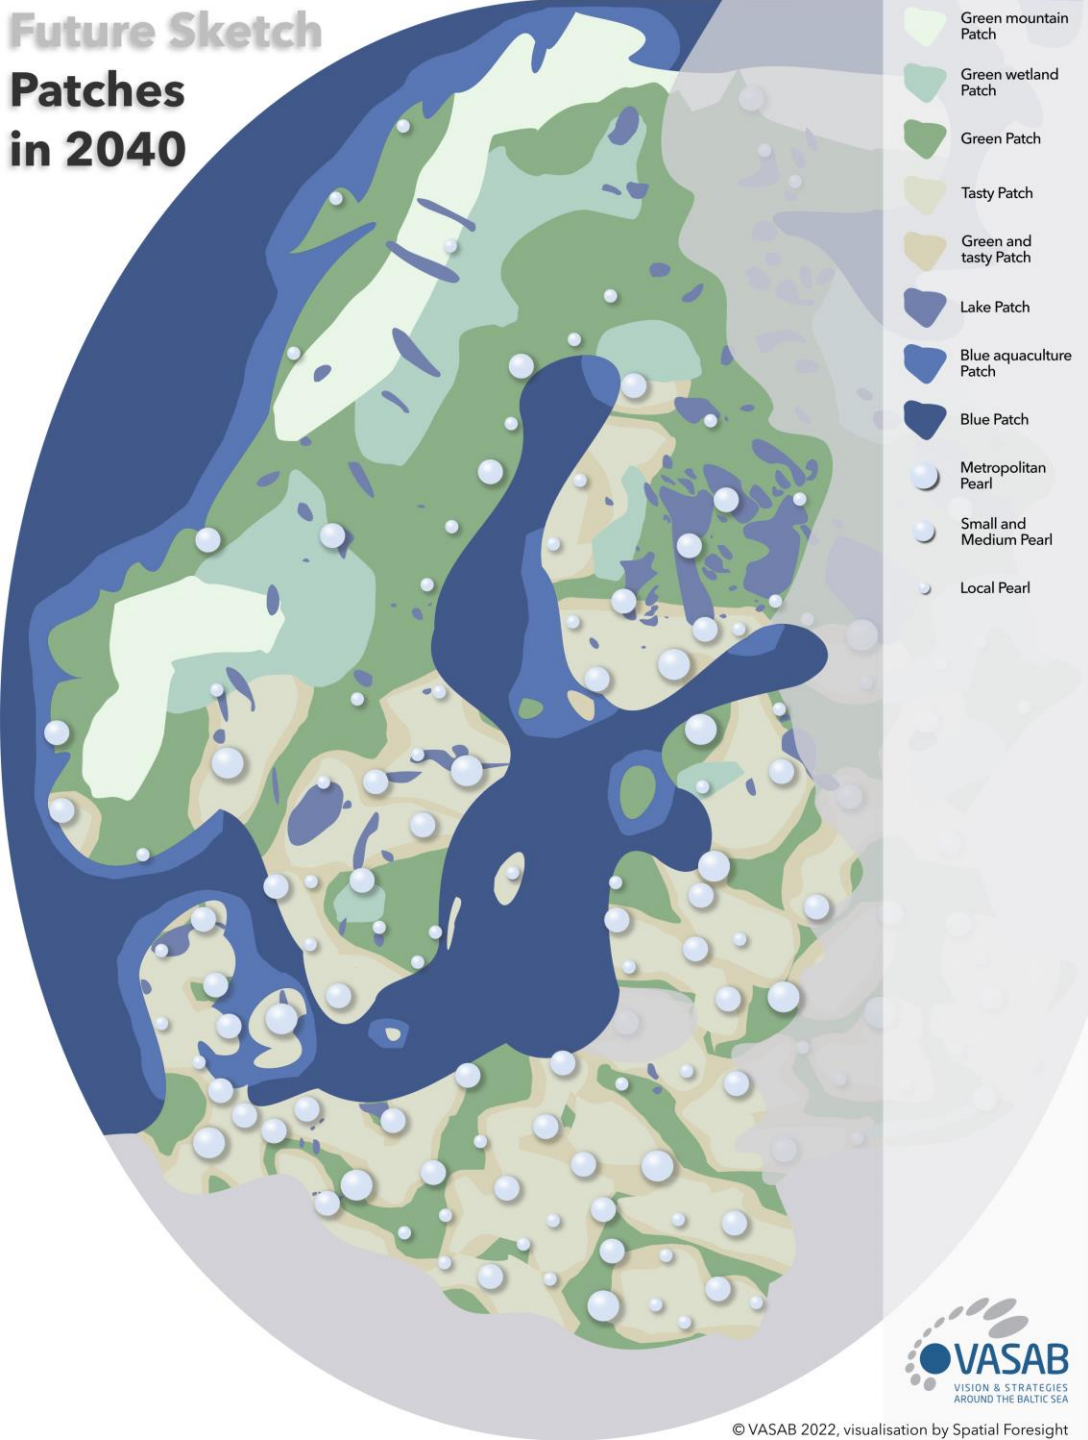

Strings 2040

By 2040 the rail, road, maritime and virtual connectivity for both goods and people is green, efficient, safe, reliable and affordable all over the Baltic Sea Region.

By 2040 energy production is carbon neutral, secure, decentralised and well-connected throughout the Baltic Sea Region.

Future Sketch Patches in 2040

Patches 2040

By 2040 the terrestrial and maritime environment has high levels of biodiversity, resilient ecosystems and overall a healthy nature all over the Baltic Sea Region.

Future Sketch Systems in 2040

Variety of spatial, land and regional plans in the BSR

Variety of maritime and marine plans in the BSR

Systems 2040

By 2040 the various relevant planning systems communicate smoothly across countries, sectors and levels of governance.

Planning systems are efficient, interoperable and communicate smoothly across systems on relevant developments, observations, measures and objectives.

Future Sketch the BSR in 2040

A Baltic Sea Region for the next generations

- A diversified and fresh Baltic Sea Region
- Vibrant *pearls* of all sizes
- Well-connected *strings* between people and places
- Resilient *patches* of ecosystems and unique areas at sea and land
- Cooperative sea and land planning *systems*

Thank you!
